

Game Ready® Hire

Game Ready® is a cryotherapy (ice) compression system that is used in acute management of musculoskeletal injuries and orthopaedic post-operative care. It is the treatment system of choice for thousands of orthopaedic specialists, physiotherapists, athletic trainers, and professional sports teams around the world.

BODYSYSTEM offers weekly hire of the Game Ready® system and relevant wrap attachment.

Benefits

The Game Ready® system delivers simultaneous circulation of iced water and cyclical compression through joint specific wraps. Wrap attachments are circumferential and form fitting to provide close surface contact for effective, fast and comfortable management of swelling and pain.

The Game Ready® system:

- is very effective in reducing acute joint swelling
- provides pain relief and may help reduce reliance on pain medication
- assists in restoring joint mobility and function
- decreases recovery time and return to sport time
- is simple to set up and use
- is portable for easy application

The Game Ready® provides:

- fast and deep cooling with comfortable, intermittent compression
- 3 adjustable cyclical compression settings: High 5-75mm Hg, Medium 5-50 mm Hg, Low 5-15 mm Hg
- variable inflation and deflation times within the compression settings
- adjustable cold settings with consistent temperature across the joint wrap attachment

Wrap Attachments

Safety

The Game Ready® system is safe to use. Traditional ice and compression treatments can carry potential side effects such as ice burns, pressure injuries and skin damage. The Game Ready® reduces these risks with its automated and adjustable system which controls temperature and compression within safe and comfortable levels.

Wrap Attachments

The low profile lightweight wraps are anatomically designed to offer circumferential coverage.

Currently BODYSYSTEM has wrap attachments for the:

- Half Leg Boot
- Straight Knee
- Flexed Elbow
- Hand/ Wrist
- Shoulder

Hiring the Game Ready®

BODYSYSTEM provides hire of the Game Ready® system and the relevant joint attachment.

A 30 minute consultation needs to be booked for fitting and education in the use of the Game Ready®, after which the unit can be hired on a weekly basis at \$77.00 per week (depending on demand for ongoing hire).

Alternatively, if you are already seeing a BODYSYSTEM Physiotherapist this may be done within your existing Physiotherapy consultation.

If you are interested in hiring the Game Ready® system please contact the BODYSYSTEM Clinic on 6231 5991.
